

NEW ARTS , COMMERCE & SCIENCE COLLEGE, NALWADI, WARDHA

2.2. Catering to student diversity

2.2.1. The institution assesses the learning levels of the of the students and organizes special programs for advanced learners and slow learners

In New Arts Commerce and Science College, we believe an intentional and thorough assessment of student learning is vital because it provides useful feedback to both the instructors and the students about the extent to which students are successfully meeting the learning objectives.

Assessment provides us analytical evidences about the progress of students' learning. It shows whether our teaching methods are making any difference for our students in developing the desired knowledge & skills in them.

Most of the students at our institution come from rural areas. Hence, they need a lot of drilling with regard their studies. To cater to their needs, we have 72 faculty members taking care of Five UG programs (BA, B Com, B Sc, BBA & BCCA) and Eleven PG programs [MA(Marathi, Political Science, Sociology, home Economics), M SC (Physics, Chemistry, Mathematics, Biotechnology & Computer Sciences), M Com & MSW]. To face the challenges while teaching, we have trained and qualified faculties appointed over here. They are offered induction events and special training programs to keep them updated with both the latest knowledge and teaching techniques.

The first step to systematic teaching program is drafting an effective academic calendar which would guide the faculties and the authorities to follow a progressive schedule. We try to include every detail about activities related to both academic as well as extra-curricular events for both the students and faculties as well in our academic calendar. Our authorities insist us to have individual calendars for every department and see that it is strictly followed.

The timetables are perfectly designed and workloads are allocated as per the norms prescribed. Our faculties are very keen in maintaining academic diaries in which they keep the record of short notes of teaching contents.

NEW ARTS , COMMERCE & SCIENCE COLLEGE, NALWADI, WARDHA

We strongly believe that effective student learning assessment is the key to unlock the difficulties of the students in their studies. Hence it is necessary to identify the intellectual quotient of the students and their rate of academic performance. The first step to their assessment starts from the analysis of the scores of the qualifying examination i. e. 12th Board Examination. According to us the assessment is a continuous process. Hence a cumulative method of assessment is being followed by us for the same. We observe and scrutinize the participation and talent of the students by keeping a documented records of their attendance, assignments, presentations and class (written& oral) tests.

As it is already intimated that 70% of our students are average and remaining are above average. But considering their issues with communication we take all necessary to train them equally by putting same efforts on every student.

We conduct remedial classes for all students for tough topics. We regularly organize faculty exchange programs for our pupils for various subjects. To create more enthusiasm among the learners we invite expert speakers to give guest lectures on various topics related to the academics and for their future career development as well. As we have already mentioned that most of our students come with rural background, so we provide them reading material in the form of PDFs for related subjects. To assess the rate of learning among the students our faculties conduct Mock Tests & Quiz Programs (both online and offline). We do online sessions of interaction with the students very frequently to discuss about their problems with regard their learning. The interactive sessions are often conducted by our Hon. Chairman Dr R G Bhoyar, Principal Dr Ashish Sasankar, all HoDs and faculties.
