## Feedback Analysis Report Submitted to appropriate bodies

### Preface

This document represents the consolidated analysis report of feedback received for the academic year 2022-2023. As part of our ongoing commitment to excellence in education and continuous improvement, we have gathered insights from various stakeholders including students, faculty, and administrative staff regarding the quality and effectiveness of our curriculum and related academic services.

The process of gathering feedback was meticulously conducted through dual channels: online via Google Forms and traditional paper-based submissions. This hybrid approach ensured inclusivity and accessibility, allowing all participants to contribute their perspectives regardless of their comfort with digital tools.

Upon collection, the feedback was carefully analyzed by our Feedback Analysis Committee, a team dedicated to ensuring that all voices are heard and valued. The subsequent findings and recommendations have been thoroughly compiled and articulated in this report, which has been presented to the Principal and the Internal Quality Assurance Cell (IQAC). After careful consideration, the report was shared with Heads of Departments (HODs) across various disciplines to implement necessary modifications and enhancements in their respective areas.

The final step in this process involves the submission of this report to the management team, who will use the insights provided to guide strategic decisions and policy formulations aimed at enriching our academic offerings and institutional practices.

Through this report, we invite you to understand the collective efforts of our community as we strive to enhance the educational experiences of our students and prepare them for successful futures.

## Feedback Analysis Report Submitted to appropriate bodies

### Preface

This document represents the consolidated analysis report of feedback received for the academic year 2021-2022. As part of our ongoing commitment to excellence in education and continuous improvement, we have gathered insights from various stakeholders including students, faculty, and administrative staff regarding the quality and effectiveness of our curriculum and related academic services.

The process of gathering feedback was meticulously conducted through dual channels: online via Google Forms and traditional paper-based submissions. This hybrid approach ensured inclusivity and accessibility, allowing all participants to contribute their perspectives regardless of their comfort with digital tools.

Upon collection, the feedback was carefully analyzed by our Feedback Analysis Committee, a team dedicated to ensuring that all voices are heard and valued. The subsequent findings and recommendations have been thoroughly compiled and articulated in this report, which has been presented to the Principal and the Internal Quality Assurance Cell (IQAC). After careful consideration, the report was shared with Heads of Departments (HODs) across various disciplines to implement necessary modifications and enhancements in their respective areas.

The final step in this process involves the submission of this report to the management team, who will use the insights provided to guide strategic decisions and policy formulations aimed at enriching our academic offerings and institutional practices.

Through this report, we invite you to understand the collective efforts of our community as we strive to enhance the educational experiences of our students and prepare them for successful futures.

## Feedback Analysis Report Submitted to appropriate bodies

### Preface

This document represents the consolidated analysis report of feedback received for the academic year 2020-2021. As part of our ongoing commitment to excellence in education and continuous improvement, we have gathered insights from various stakeholders including students, faculty, and administrative staff regarding the quality and effectiveness of our curriculum and related academic services.

The process of gathering feedback was meticulously conducted through dual channels: online via Google Forms and traditional paper-based submissions. This hybrid approach ensured inclusivity and accessibility, allowing all participants to contribute their perspectives regardless of their comfort with digital tools.

Upon collection, the feedback was carefully analyzed by our Feedback Analysis Committee, a team dedicated to ensuring that all voices are heard and valued. The subsequent findings and recommendations have been thoroughly compiled and articulated in this report, which has been presented to the Principal and the Internal Quality Assurance Cell (IQAC). After careful consideration, the report was shared with Heads of Departments (HODs) across various disciplines to implement necessary modifications and enhancements in their respective areas.

The final step in this process involves the submission of this report to the management team, who will use the insights provided to guide strategic decisions and policy formulations aimed at enriching our academic offerings and institutional practices.

Through this report, we invite you to understand the collective efforts of our community as we strive to enhance the educational experiences of our students and prepare them for successful futures.

## Feedback Analysis Report Submitted to appropriate bodies

### Preface

This document represents the consolidated analysis report of feedback received for the academic year 2019-2020. As part of our ongoing commitment to excellence in education and continuous improvement, we have gathered insights from various stakeholders including students, faculty, and administrative staff regarding the quality and effectiveness of our curriculum and related academic services.

The process of gathering feedback was meticulously conducted through dual channels: online via Google Forms and traditional paper-based submissions. This hybrid approach ensured inclusivity and accessibility, allowing all participants to contribute their perspectives regardless of their comfort with digital tools.

Upon collection, the feedback was carefully analyzed by our Feedback Analysis Committee, a team dedicated to ensuring that all voices are heard and valued. The subsequent findings and recommendations have been thoroughly compiled and articulated in this report, which has been presented to the Principal and the Internal Quality Assurance Cell (IQAC). After careful consideration, the report was shared with Heads of Departments (HODs) across various disciplines to implement necessary modifications and enhancements in their respective areas.

The final step in this process involves the submission of this report to the management team, who will use the insights provided to guide strategic decisions and policy formulations aimed at enriching our academic offerings and institutional practices.

Through this report, we invite you to understand the collective efforts of our community as we strive to enhance the educational experiences of our students and prepare them for successful futures.

## Feedback Analysis Report Submitted to appropriate bodies

### Preface

This document represents the consolidated analysis report of feedback received for the academic year 2018-2019. As part of our ongoing commitment to excellence in education and continuous improvement, we have gathered insights from various stakeholders including students, faculty, and administrative staff regarding the quality and effectiveness of our curriculum and related academic services.

The process of gathering feedback was meticulously conducted through dual channels: online via Google Forms and traditional paper-based submissions. This hybrid approach ensured inclusivity and accessibility, allowing all participants to contribute their perspectives regardless of their comfort with digital tools.

Upon collection, the feedback was carefully analyzed by our Feedback Analysis Committee, a team dedicated to ensuring that all voices are heard and valued. The subsequent findings and recommendations have been thoroughly compiled and articulated in this report, which has been presented to the Principal and the Internal Quality Assurance Cell (IQAC). After careful consideration, the report was shared with Heads of Departments (HODs) across various disciplines to implement necessary modifications and enhancements in their respective areas.

The final step in this process involves the submission of this report to the management team, who will use the insights provided to guide strategic decisions and policy formulations aimed at enriching our academic offerings and institutional practices.

Through this report, we invite you to understand the collective efforts of our community as we strive to enhance the educational experiences of our students and prepare them for successful futures.

This document represents the consolidated analysis report of feedback received for the academic year 2022-2023. As part of our ongoing commitment to excellence in education and continuous improvement, we have gathered insights from various stakeholders including students, faculty, and administrative staff regarding the quality and effectiveness of our curriculum and related academic services.

The process of gathering feedback was meticulously conducted through dual channels: online via Google Forms and traditional paper-based submissions. This hybrid approach ensured inclusivity and accessibility, allowing all participants to contribute their perspectives regardless of their comfort with digital tools.

Upon collection, the feedback was carefully analyzed by our Feedback Analysis Committee, a team dedicated to ensuring that all voices are heard and valued. The subsequent findings and recommendations have been thoroughly compiled and articulated in this report, which has been presented to the Principal and the Internal Quality Assurance Cell (IQAC). After careful consideration, the report was shared with Heads of Departments (HODs) across various disciplines to implement necessary modifications and enhancements in their respective areas.

The final step in this process involves the submission of this report to the management team, who will use the insights provided to guide strategic decisions and policy formulations aimed at enriching our academic offerings and institutional practices.

Through this report, we invite you to understand the collective efforts of our community as we strive to enhance the educational experiences of our students and prepare them for successful futures.

## CONCLUSION

Thus the feedback given by the stakeholders were analyzed and suitable action was taken so as to satisfy the expectations of both students, parents and employers. This further helped us to improvise our curriculum as per the expectations of the stakeholders

This document represents the consolidated analysis report of feedback received for the academic year 2020-2021. As part of our ongoing commitment to excellence in education and continuous improvement, we have gathered insights from various stakeholders including students, faculty, and administrative staff regarding the quality and effectiveness of our curriculum and related academic services.

The process of gathering feedback was meticulously conducted through dual channels: online via Google Forms and traditional paper-based submissions. This hybrid approach ensured inclusivity and accessibility, allowing all participants to contribute their perspectives regardless of their comfort with digital tools.

Upon collection, the feedback was carefully analyzed by our Feedback Analysis Committee, a team dedicated to ensuring that all voices are heard and valued. The subsequent findings and recommendations have been thoroughly compiled and articulated in this report, which has been presented to the Principal and the Internal Quality Assurance Cell (IQAC). After careful consideration, the report was shared with Heads of Departments (HODs) across various disciplines to implement necessary modifications and enhancements in their respective areas.

The final step in this process involves the submission of this report to the management team, who will use the insights provided to guide strategic decisions and policy formulations aimed at enriching our academic offerings and institutional practices.

Through this report, we invite you to understand the collective efforts of our community as we strive to enhance the educational experiences of our students and prepare them for successful futures.

## CONCLUSION

Thus the feedback given by the stakeholders were analyzed and suitable action was taken so as to satisfy the expectations of both students, parents and employers. This further helped us to improvise our curriculum as per the expectations of the stakeholders

This document represents the consolidated analysis report of feedback received for the academic year 2018-2019. As part of our ongoing commitment to excellence in education and continuous improvement, we have gathered insights from various stakeholders including students, faculty, and administrative staff regarding the quality and effectiveness of our curriculum and related academic services.

The process of gathering feedback was meticulously conducted through dual channels: online via Google Forms and traditional paper-based submissions. This hybrid approach ensured inclusivity and accessibility, allowing all participants to contribute their perspectives regardless of their comfort with digital tools.

Upon collection, the feedback was carefully analyzed by our Feedback Analysis Committee, a team dedicated to ensuring that all voices are heard and valued. The subsequent findings and recommendations have been thoroughly compiled and articulated in this report, which has been presented to the Principal and the Internal Quality Assurance Cell (IQAC). After careful consideration, the report was shared with Heads of Departments (HODs) across various disciplines to implement necessary modifications and enhancements in their respective areas.

The final step in this process involves the submission of this report to the management team, who will use the insights provided to guide strategic decisions and policy formulations aimed at enriching our academic offerings and institutional practices.

Through this report, we invite you to understand the collective efforts of our community as we strive to enhance the educational experiences of our students and prepare them for successful futures.

## CONCLUSION

Thus the feedback given by the stakeholders were analyzed and suitable action was taken so as to satisfy the expectations of both students, parents and employers. This further helped us to improvise our curriculum as per the expectations of the stakeholders
