ACTIVITY REPORT

Department has organized the Career Guidance and Skill Development Workshop on 27/10/2022.

The aim of guidance and counselling is to enhance coping skills, promote decision making, assist behaviour change and improve interpersonal relationships.

For us, there are 5 major facets to effective career guidance – Psychometric Tests, Personalized Counselling, Technology-based Research tools, Alumni Guidance, and University Engagement. Such kind of brain storming session will be usefullspecially for last years students to discuss about their future planning.

Career guidance helps plan occupational goals and take actionable steps. Career guidance is a type of counseling undertaken by professionals to identify and explore the most suitable careers and occupations to start their career in the right direction

Career guidance helps students in choosing careers that suit their interests, aptitude and abilities. It enhances their confidence and empowers them to make decisions regarding the selection of courses after completion of their school education or graduation.

ACTIVITY REPORT

We have conducted a session on Language learning (English) on 09/01/2023 for our students because it will help them to know about SOFT SKILL.

They become aware of new cultures, and develop a greater understanding and appreciation of other people and customs that are different to their own. As they develop their language fluency, they increase their ability to communicate across cultures and interact positively with people from other countries.

All settings, language fluency is incredibly important. After all, it's not much use knowing all of the vocabulary if you cannot use the words to communicate! Building fluency enables learners to explain their views and engage in conversation with peers and/or native speakers.

Language is absolutely central to your learning: without it, you cannot make sense or communicate your understanding of a subject. You will need to develop your language skills, and specifically, your academic English, in order to: understand and make the most effective use of your study materials.

ACTIVITY REPORT

Department has organized the Career Guidance and Skill Development Workshop From First Week Of May 2023.

Counselling is a form of 'talk therapy'. It is a process where an individual, couple or family meet with a trained professional counsellor to talk about issues and problems that they are facing in their lives. Professional counselling is confidential and non-judgmental.

The aim of guidance and counselling is to enhance coping skills, promote decision making, assist behaviour change and improve interpersonal relationships.

For us, there are 5 major facets to effective career guidance – Psychometric Tests, Personalized Counselling, Technology-based Research tools, Alumni Guidance, and University Engagement. Such kind of brain storming session will be usefullspecially for last years students to discuss about their future planning. Total Beneficiaries was 72.

Career guidance helps plan occupational goals and take actionable steps. Career guidance is a type of counseling undertaken by professionals to identify and explore the most suitable careers and occupations to start their career in the right direction

Career guidance helps students in choosing careers that suit their interests, aptitude and abilities. It enhances their confidence and empowers them to make decisions regarding the selection of courses after completion of their school education or graduation.

The basic take away from this session was Know yourself, believe in yourself and follow the HEART – Pursue your passion to find fulfilment. Discover ways to combine your interests with career opportunities. Access your ALLIES – Rely on the support of your family, friends, mentors, colleagues and peers.

Effective counseling skills are vital in forming a strong alliance between the client and therapist.

ACTIVITY REPORT

We have conducted an activity on one day workshop on Language learning (English) on 08/08/2021, by special Soft Skill Trainer. Total No. of Beneficiary of this activity 186. Massive response was received for this activity addressed by Prof. Anand Chanade Sir

The four basic language skills are listening skills, writing skills, speaking skills and reading skills. These language skills are conversation abilities that allow you to express yourself clearly and precisely. With these fundamental language skills, you not only learn to speak well but also to listen carefully.

There are different ways of teaching the 4 language skills, which are Reading, Listening, Writing and Speaking. Students can encounter various difficulties in these different skills. They will make mistakes in English pronunciation, grammar, syntax, vocabulary usage, and spelling.

Reading in English is important for developing professional knowledge. It's the language most often used in international publications, contracts and instructions.

ACTIVITY REPORT

The objective of every Indian school General Knowledge competition is to **encourage students to look beyond their textual knowledge and establish a healthy relations with the topics given.**

A quiz is a game which can also be called a mind sport wherein the players, either as individuals or in teams attempt to answer questions posed to them correctly, order to win a prize. The session was addressed by Prof. Pramod Tadas Sir

We have conducted an activity of Quiz Contest on 03/03/2022 for our students because Quizzes help one gain a broad or specialized understanding of a subject. Quizzes are intended to encourage fun learning methods while also enhancing general knowledge. Students can "think outside the box" or from diverse perspectives by participating in quiz tournaments.

Using quizzes can help students practice while they learn. They can also reveal cohort misunderstanding to teachers. Of course, quizzes are also a tool

for assessing your students knowledge and skills. As a consequence, the Quiz activity has a lot of possible settings to meet teachers needs.

The activity was addressed by Dr.Misal Sir ,and Prof. Thakkar Mam and total No. of beneficiaries was almost 180 for this activity . it helps students to think out of the box sometimes and get exposure of extra curricular activities.Massive response was received for this activity.

ACTIVITY REPORT

Our department has conducted the activity of "English and Grammer learning activity" which was addressed by Prof. Anand Chahande sir.

Such kind of session was helpful for students to expose themselves with minute grammatical errors which are very common and be left unnoticed many times. The Marathi language, with its rich linguistic heritage. As one of the oldest languages in India.

Education in the mother tongue helps students develop strong communication skills, enabling them to express themselves more confidently. Community bonding: Marathi medium schools often promote a sense of community bonding, as students share a common language and cultural background.

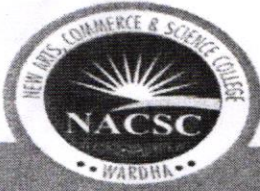

The results showed that the main benefits of using English as a medium of instruction as identified by the founders were: better accessibility of English materials as well as the existence of better curricula, better job and career development opportunities, a positive influence on the wider community and wider chances .

ACTIVITY REPORT

Department has organized the Career Guidance and Skill Development Workshop on 27/10/2019.

The aim of guidance and counselling is to enhance coping skills, promote decision making, assist behaviour change and improve interpersonal relationships.

For us, there are 5 major facets to effective career guidance – Psychometric Tests, Personalized Counselling, Technology-based Research tools, Alumni Guidance, and University Engagement. Such kind of brain storming session will be useful specially for last years students to discuss about their future planning.

Career guidance helps plan occupational goals and take actionable steps. Career guidance is a type of counseling undertaken by professionals to identify and explore the most suitable careers and occupations to start their career in the right direction

Career guidance helps students in choosing careers that suit their interests, aptitude and abilities. It enhances their confidence and empowers them to make decisions regarding the selection of courses after completion of their school education or graduation.

The basic take away from this session was Know yourself, believe in yourself and follow the HEART – Pursue your passion to find fulfilment. Discover ways to combine your interests with career opportunities. Access your ALLIES – Rely on the support of your family, friends, mentors, colleagues and peers.

Web designing is the topic for essay writing. is important because it impacts how your audience perceives your brand. A good web design helps you keep your leads on your page.

Skilled web designers can secure employment in IT companies, web design agencies, e-commerce firms, advertising agencies, and digital marketing agencies. Additionally, many web designers opt to work as freelancers, granting them the flexibility to select projects and work remotely..

Web design will shift towards delivering personalized and contextual user experiences. With advancements in "**Artificial Intelligence**" (AI) and machine learning, designers can leverage user data to understand preferences, anticipate needs, and provide tailored content and recommendations.

ACTIVITY REPORT

We have conducted a session on 19/09/2018 on How to Use Google drive application such as creating Google forms, Classroom creating, Online conferences For Better presentation during different international seminars .

As it helps the students learners engage better due to it being a more entertaining way of learning. 40% of people respond better to visual information as it is something fun to look at, and it is a great way to motivate students as it is giving them a different way of learning.

It also cleared doubts of students on how to drive.google.com. On your computer, go to drive.google.com. Upload or create files. You can upload files from your computer or create files in Google Drive Share and organize files. You can share files or folders, so other people can access, edit, or comment on them.

The different tools in the animation like creating an animation, animators must use a collection of equipment that helps process and create the graphics and content. So the drawing paper and pen, special pencils, and other traditional tools can still be useful in your goal of developing your own animation film.
