ACTIVITY REPORT

Department has organized the Career Guidance and Skill Development Workshop on 27/10/2022.

The aim of guidance and counselling is to enhance coping skills, promote decision making, assist behaviour change and improve interpersonal relationships.

For us, there are 5 major facets to effective career guidance – Psychometric Tests, Personalized Counselling, Technology-based Research tools, Alumni Guidance, and University Engagement. Such kind of brain storming session will be usefull specially for last years students to discuss about their future planning.

Career guidance helps plan occupational goals and take actionable steps. Career guidance is a type of counseling undertaken by professionals to identify and explore the most suitable careers and occupations to start their career in the right direction

Career guidance helps students in choosing careers that suit their interests, aptitude and abilities. It enhances their confidence and empowers them to make decisions regarding the selection of courses after completion of their school education or graduation.

The basic take away from this session was Know yourself, believe in yourself and follow the HEART – Pursue your passion to find fulfilment. Discover ways to combine your interests with career opportunities. Access your ALLIES – Rely on the support of your family, friends, mentors, colleagues and peers.

ACTIVITY REPORT

We have conducted a session on 12/08/2018 on How to Crack an Interview for getting better in future and secure a good manager position in big corporations during different I stages of life..

As it helps the students learners engage better due to it being a more entertaining way of learning. 40% of people respond better to visual information as it is something fun to look at, and it is a great way to motivate students as it is giving them a different way of learning.

Prof. Murthy also explained the different tools in the animation like creating an animation, animators must use a collection of equipment that helps process and create the graphics and content. So the drawing paper and pen, special pencils, and other traditional tools can still be useful in your goal of developing your own animation film.

Total No. of beneficiaries was 65.
