UGC act 1956

6.5.1 Internal Quality Assurance Cell (IQAC) has contributed significantly for institutionalizing the quality assurance strategies and processes. It reviews teaching learning process, structures & methodologies of operations and learning outcomes at periodic intervals and records the incremental improvement in various activities

The establishment of an Internal Quality Assurance Cell (IQAC) within an institution has been a transformative force in ensuring high-quality standards across all areas. The IQAC has been instrumental in implementing effective strategies and processes that uphold excellence in the institution's functioning. Its dedication has led to substantial advancements, raising the institution to new levels.

One of the primary roles of the IQAC is to oversee the teaching and learning processes, including instructional methods, assessments, and student support. This oversight guarantees a conducive and effective learning environment. Additionally, the IQAC evaluates operational structures and methodologies, such as administrative processes, governance, resource management, and policies, pinpointing areas for enhancement.

Crucially, the IQAC tracks and documents incremental improvements across activities, aiding the institution in monitoring its progress, identifying successes, and highlighting areas needing further development.

In summary, the IQAC's contributions are vital in embedding quality assurance practices. Through continuous reviews, enhancements, and documentation, the IQAC significantly enhances the institution's operational quality and learning outcomes.
