## GREEN CAMPUS/PLASTIC-FREE CAMPUS POLICY

### Introduction

This policy document establishes the commitment of Indraprastha New Arts Commerce and Science College Nalwadi, Wardha to fostering a sustainable environment by implementing a Green Campus/Plastic-Free initiative. The initiative is aimed at minimizing the environmental impact of campus operations and promoting sustainability among students, faculty, staff, and the community.

### Objective

The primary objective of this policy is to transition Indraprastha New Arts Commerce and Science College Nalwadi, Wardha towards a more sustainable and environmentally friendly campus by:

- Reducing and eventually eliminating the use of single-use plastics on campus.
- Enhancing environmental awareness and education within the college community.
- Implementing sustainable practices in all aspects of campus operations.

## **Scope**

This policy applies to all individuals on campus, including students, faculty, staff, contractors, and visitors.

## **Policy Details**

### **☞ Plastic Reduction Strategies**

- **Ban on Single-Use Plastics:** The sale and use of single-use plastic items (e.g., water bottles, straws, cutlery, and bags) are prohibited on campus premises. Alternatives made from biodegradable materials will be provided.
- **Sustainable Procurement:** All procurement processes will prioritize products and services that adhere to environmental sustainability standards, including packaging requirements that minimize plastic use.

### **☞ Waste Management**

- **Recycling Programs:** Implement comprehensive recycling programs to manage waste effectively. This includes designated recycling bins for plastic, paper, metal, and glass.
- **Composting:** Facilitate organic waste composting programs for food waste generated from campus cafeterias and events.

### **☞ Energy and Water Conservation**

- **Energy Efficiency:** Promote the use of energy-efficient appliances and lighting. Encourage initiatives such as the use of solar panels.

- **Water Conservation:** Implement measures to reduce water wastage, including the installation of low-flow fixtures and the maintenance of landscaping that requires minimal water use.

#### 🔑 **Education and Awareness**

- **Workshops and Seminars:** Regular workshops, seminars, and campaigns will be held to educate the campus community about sustainability practices and the importance of reducing plastic use.
- **Integration into Curriculum:** Environmental sustainability topics will be integrated into relevant courses to educate students about the impact and management of plastic waste.

#### 🔑 **Monitoring and Compliance**

- **Sustainability Committee:** Establish a Sustainability Committee responsible for implementing, monitoring, and reviewing the policy's effectiveness. This committee will consist of members from the administration, faculty, and student body.
- **Regular Audits:** Conduct annual audits to assess compliance with the policy and its impact on reducing plastic usage on campus.
- **Feedback and Improvement:** Encourage feedback from the college community to continually improve sustainability initiatives.

#### 🔑 **Conclusion**

Through the implementation of this Green Campus/Plastic-Free Campus policy, Indraprastha New Arts Commerce and Science College , Nalwadi Wardha aims to demonstrate leadership in environmental stewardship

and foster a sustainable future, aligning with global environmental standards and commitments.

M) Site Conditions while handing over

Date / Time	20/9/17 : 5:35 PM
Solar Irradiation	150 watt / meter sq
DC power observed	880 watt
Av. Array Voltage	432 V/0.1A
Av Array Current	
AC power observed	600 KW
AC Voltage	229 V/1
AC Current per phase	Amp per Ph .

N) Summary of Inverter

Sr No	Unit Sr No
Inv 1	A1Z371104A

O) Disclaimers Explained

It is explained to customer that

"On Grid System" will not function and will stop generation of power as soon as Grid Power Fails	✓
Power generation from Solar Modules will keep degrading year on year as per the manufacturer's performance chart	✓
Solar Power Generation depends on the solar radiation at the given point of time - which varies from time to time.	✓
Solar production will drop to almost 50% for 4 months in monsoon period	✓
Solar Modules needs to cleaned regularly ( typically twice a week ) or elase power production will drop	✓
Power production drops down drastically for the given string in case of sharp or diffused shadow even on single module of part of it	✓
Low Voltage of fluctuations in voltage can trip the inverter till the voltage is restored to the range and hence can affect power production	✓

## Business Algorithms P. Ltd

39, Shankara Nagar, Nagpur 440010

Ph : 0712-2546800

Mail : solar.products@gmail.com

- Note :*
1. This is a Grid tie inverter and the solar production will stop as soon as grid fails
  2. Generation will be 50% during monsoon season.
  3. Production from Solar modules keep reducing 1% to 1.5% per year
  4. Shadow / dust on panels reduces production drastically
  5. Low voltage even in one of the phases or rapid voltage fluctuations will trip the generator till the voltages are restored in the range of 180 – 260 V per phase & may affect generation.
  6. Free internet connection to be provided by you near the inverter.

### commercial Terms :

1. Prices quoted are inclusive of all taxes, transportation, installation at your site but are exclusive of regulatory fees and cost of meter , if required.
2. Warrantee : As mentioned
3. Delivery / Execution Period : 4 to 6 weeks
4. Payment : 50% advance , balance on commissioning.
